100

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor discoloration and dark smudges or stains, particularly along the left edge and bottom. The binding edge on the left is visible, showing stitching or stitching holes. There is no text or other markings on the page.

24

This image shows a single, blank page from a lined notebook or ledger. The paper has a light cream or off-white tone. It features several horizontal blue or grey ruling lines spaced evenly across its surface. A single vertical line runs down the left side of the page, creating a narrow margin. The edges of the page are slightly irregular, and there are some faint, dark spots or smudges, particularly near the top and bottom edges, suggesting it might be an older document or one that has been handled. There is no handwriting or printed text on the page.

1000

Figure 1 is a schematic representation of the experimental design. It shows a sequence of events: 'Pre-test', 'Training', and 'Post-test'. Each event is represented by a bar graph. The x-axis is labeled 'Time' and the y-axis is labeled 'Score'. The 'Pre-test' graph shows a single bar for 'Pre-test'. The 'Training' graph shows two bars: 'Training' and 'Post-test'. The 'Post-test' graph shows two bars: 'Post-test' and 'Post-test'. The scores are represented by the height of the bars.
